Test results and evaluation

STUBAI ZMV GmbH, Dr. Kofler-Straße 1, A – 6166 Fulpmes

Field of application

Cutting thin branches and wood to 6 cm in diameter

In the landscape and forest care as well as the hunting enterprise

Test item	Test result
Handling	recommended by stem length and stem shape two-hand operation
Strike	Good accuracy Good weight distribution
Durability	Good quality and workmanship of the materials used Maintenance-free stem Due to the handle, even in case of breakage, no detachment of the head from the stalk

Execution

Tool head made of quality steel. Curved hollow handle made of glass fiber reinforced plastic with knob and eyelet. Handle with non-slip surface. Cutting protection made of silicone or plastic available.

Technical data's

Overall length / handle profile	780 mm / oval 36 x 25 mm
head	
Length	195 mm
Width	4 mm
Height	77 mm
Cutting angles	16 °
Total weight	970 g

Committee Tools and Equipment
Chairman: Dr. Sebastian Paar, Laubau

Test closing August 2018

Valid until August 2023

First approval August 2018

Test engineer
